Donna Wakeman
Webtouch Ltd

Dear Donna,

Firstly many thanks for your support and knowledgeable direction through the app development, what your company gave me was a real insight into app creation and user interface; thank you for exploring opportunities in an optimistic and energetic manner which has paid dividends to the final product.

I found that your on-hand support, flexibility and adaptability to change, enabled us to meet our tight deadline for release before the Paris Air Show. Your willingness to engage face to face, in turn teasing out my actual requirements has resulted in a great final product.

The interface that web touch provides, allows updates to be made intuitively which are visible on the app instantaneously. This I love and will allow our company to keep pace with an evolving environment.

Thank you again and all the best for your future

Yours faithfully
